

# What Can You Say About a Really Terrible Mummy Joke?

Solve, then cross out the letter above the solution. When you are finished, the answer to the title question will remain.

1.  $y - 13 = -5$       2.  $\frac{m}{-15} = -4$       3.  $a + 70 = 2$       4.  $-3t = 99$
5.  $\frac{1}{6}k = -11$       6.  $-14 + u = 50$       7.  $-18x = -360$       8.  $-75 = n + 9$
9.  $30 = 12d$       10.  $4\frac{1}{2} + q = 9\frac{1}{2}$       11.  $24 = -\frac{v}{3}$       12.  $-20 = -7 + w$
13.  $64 = x + 100$       14.  $-\frac{1}{9}b = -12$       15.  $q + (-1) = 16$       16.  $45p = -180$
17.  $-6 = \frac{1}{20}h$       18.  $m - (-4) = 32$       19.  $-10a = -72$       20.  $-12 = y - 36$
21.  $-8e = 4$       22.  $\frac{x}{25} = -25$       23.  $-92 + w = -10$       24.  $-n = 40$
